

NOVIEM D. BOOC JR.

Software Quality Assurance Analyst

General Santos City, Philippines | ndbj343.work@gmail.com | [linkedin.com/in/noviem-booc](https://www.linkedin.com/in/noviem-booc)

PROFESSIONAL SUMMARY

Software QA Analyst specializing in manual and automated test execution to drive high-quality software releases in Agile retail environments. Skilled in engineering web automation suites using Playwright (JavaScript), BDD frameworks via Katalon Studio (Cucumber/Gherkin/Groovy), and Selenium with Python. Spearheaded a targeted 3-month QA training program, successfully upskilling team members and expanding core automation capabilities.

SKILLS

- **Automation Testing:** Playwright (JavaScript), Selenium WebDriver (Python), Katalon Studio (Groovy), BDD (Cucumber/Gherkin), Test Script Development, Automation Framework Design
- **Manual & Quality Execution:** Test Case Design & Execution, Functional Testing, Regression Testing, Smoke Testing, Parallel Testing, Defect Tracking & Root Cause Analysis
- **Tools & Platforms:** JIRA, Test Management Tools, Version Control (Git)
- **Methodologies & Domains:** Agile/Scrum, Sprint Planning, Daily Stand-ups, Retail Applications, POS Systems, E-Commerce Platforms, Inventory Management, Payment Systems

EXPERIENCE

SOFTWARE QUALITY ASSURANCE ANALYST

KCC Property Holdings, Inc. — General Santos City, Philippines

August 2025 – Present

- Designed and executed comprehensive test suites based on complex business requirements and user stories to ensure high-quality, defect-free software releases across core retail applications.
- Executed Functional, Regression, Smoke, and Parallel Testing across POS, e-commerce, inventory, and payment platforms to validate application stability and safeguard data integrity prior to deployment.
- Spearheaded a targeted 3-month internal training program on Selenium with Python by mentoring manual QA analysts on scripting basics and reusable test logic to successfully build team-wide automation capabilities.
- Expanded web automation coverage using Playwright (JavaScript) and BDD frameworks (Cucumber/Gherkin/Groovy in Katalon Studio) to accelerate regression cycles and improve overall test execution efficiency.
- Conducted cross-browser and cross-device testing to identify critical UI/UX discrepancies, guaranteeing a seamless user experience across platforms.
- Managed end-to-end defect lifecycles in JIRA while collaborating closely with developers to accelerate bug resolution, verify fixes, and consistently protect release timelines.

EDUCATION

Bachelor of Science in Information Technology

Goldenstate College - General Santos City

2021 – 2025
